Fire Protection Area

STSS Response Area

The maps and figures are intended to generally show the areas covered by SSIFR. These maps and figures are not intended to illustrate the exact response distance for each of the areas shown; however, they are intended to be used as a visual tool to assist the readers in showing areas where a delayed response is possible and understanding some of the basic methodologies used within the fire insurance grading. The accuracy of these maps is based on underlying data; field data should be used to confirm this data and accuracy of these maps. Fire Underwriters Survey does not warrant or make any representations with respect to the quality, completeness, currency or accuracy of anything contained in this map, the fitness of this map for any purpose or results obtained using information contained in this map and is not responsible for any action taken in reliance on information contained in this map.
