**NOTES:**

- 1) Files for 2003-2004 are older than the ministrys retention period and predate Mainroad as the maintenance contractor, therefore no data is available.
- 2) Some further work was done on Pender Island between 2003 and 2006 in combination with paving projects on Salt Spring, however, it is not known how much was spent on each island and therefore we have not attempted to estimate here.
- 3) 2012-13 is planned work by the maintenance contractor for summer 2013; actual work may vary
